Opis produktu

This sporty motorcycle will surely bring a smile to every child's face, enriching their walks and outdoor playtime. The eye-catching design, construction, and decorations resembling full-size vehicles make this racer stand out. The durable and sturdy ABS plastic body features model labels, giving the vehicle a modern and original look. The illumination of the wheels adds to the experience and impresses every child. The inclusion of training wheels is a highly beneficial feature, making it easier for children who have trouble maintaining balance while riding. This motorcycle comes equipped with a 12V7 Ah battery and two 35W motors! These components allow a speed of 3-5 km/h, providing immense joy to every child. The model has two gears - forward and reverse, making playtime even more enjoyable. The well-thought-out design of the children's battery-powered motorcycle includes a central shock absorber, ensuring comfort during the ride. The racer is designed for children above 3 years old. The miniature version of the motorbike is made from certified, high-quality materials, guaranteeing solidity and durability, which is further emphasized by the CE certification.
