Begin by disinfecting your hands, as well as your clients', using an antiseptic solution. Prepare your workspace accordingly. 2. Shape your nails using a suitable file, gentle buff the nail plate with a polishing block, and attend to the cuticles if necessary. 3. Clean the nail surface with a lint-free wipe saturated in nail cleaner. Optionally, apply a primer. 4. Apply a thin layer of hybrid base and cure for 30 seconds in an LED lamp or 2 minutes in a UV lamp. 5. Apply the chosen hybrid polish color onto the cured base and cure for 30 seconds in an LED lamp or 2 minutes in a UV lamp. Repeat this step for a more intense color payoff. 6. Finally, apply a thin layer of top coat and cure for 30 seconds in an LED lamp or 2 minutes in a UV lamp. Depending on the top coat's formulation, a final wipe with nail cleaner might be necessary. 7. For enhanced nail care, we recommend applying cuticle oil around the nails.
